They even have a Performance Beyond Promises guarantee.

*Memories in a whole new light.*

ZamZuu is excited to announce that a new featured product line is now available! Introducing [Diamond Ice Prints](#)

Each Diamond Ice Print is a frameless photo fused into crystal glass and is designed to capture natural backlight, enhancing the colors and vibrancy of each image.

Transferred from a digital picture, the result is the highest resolution product in the industry. The marriage of this process with today's digital picture demand creates a unique product now available to the consumer market!
